

*Meet our 2022
Faith Build
Family*

The Arvelo Family

**Dear Habitat for Humanity MontDelco Staff
and Faith Build Community,**

Today we have received our miracle, today is day one of the rest of our lives, today we have written down the date on our calendar as the day that history was filled with color for this beautiful journey of life.

This seems like a dream from which we don't know whether to wake up or continue dreaming, We do not believe the news that we have been chosen with such consideration to be part of this beautiful project that goes far beyond real estate. That we have longed for our first home since before we could remember and that today we can already see the materialization of this dream, thanks to you and your hard humanitarian work.

I know that you have looked beyond what can be evaluated to approve us, you have seen eight bright eyes excited daydreaming with the idea to paint their own walls one day, of two girls who will be able to jump on their own floor and grow and grow, you could see us laugh, and see us cry in our own window, you saw us drinking coffee in our kitchen and pinching ourselves to know if what we are living was true, and continue making memories in the best place on the planet, our house, that thanks to you will bring a solid seal to the most precious thing we have been building for 15 years, our family.

THANK YOU, for giving birth to the canvas of our dream, for refreshing a time we've had, of great trial and uncertainty and reminding us that all is not lost and that there are thousands of reasons to continue in love with life and to strengthen our faith in our faithful Father who literally moves mountains.

May God help us bless this organization as you diligently and with overflowing kindness have done with us and may this be the beginning of a beautiful and strong friendship.

Grateful, amazed and blessed,
The Arvelo family
